Other Products

Ghost Switch

Ghost Switch is a smart home technology system that grants users control over electrical home appliances. Control your home with your smartphone. Easily manage your home electrical devices, even when you are away from home or in different rooms with this innovative product.

Ghost Smart Lock

Our unique, patent-pending system lets you control your home security with more than just a key. No need to keep track of your keys or carry bulky keychains! Ghost smart lock offers modern homeowners the best possible combination of convenience and security.

Ghost Air

One of the biggest problems in the apartment industry is that landlords and hosts need help managing their apartments online. We are building a platform that solves this problem by providing them with an easy way to manage their properties.

Ghost-Air is a free platform that connects short-let and hotel owners with guests. It is an online property management system, where hosts can edit their listing

details, manage guest inquiries, accept bookings, and receive payments in one seamless platform. Being a free service, it also helps hosts save on fees and time.
